Notable Challenges

I lost my voice in 2020 when I was intubated for surgery. I persevered through a lot of grief and rejection and trained my vocal muscles to where it is today.

Losing the one thing about myself I loved the most was profoundly humbling. The process of prevailing past it helped me become a better performer. It helped me understand that both talent and hard work are needed to make passion thrive.

Losing my voice, though harrowing, made me realize I loved theater for more than just performing. I'd love to be able to contribute in props or language advising or costumes or anything really. I'll be happy as long as I'm part of the production.

If someone approached me three years ago and told me I'd be cultivating my dream career in musical theater today, I'd scoff because I didn't, no, couldn't believe I'd ever be able to sing again. I'm incredibly grateful for this second chance and you can bet your bottom dollar I'm not throwing away my shot.
